MF900 THE PARTS ILLUSTRATIONS AND PARTS LISTS

GENERAL

This section contains the Parts Illustrations and the Parts List for each of the major assemblies in the Model MF900 Modular Flaker Ice maker.

A *No Number* designation, when used in the Part Number Column indicates the unit is not available from SCOTSMAN as an assembly. This designation is used only for the convenience and clarity of division in cataloging.

HOW TO ORDER PARTS OR ASSEMBLIES

When ordering parts or assemblies, to avoid costly delays and errors in shipment, give the part number, the complete description shown in the list, and the quantities of each part or assembly required. Also include the model name, the serial number of the icemaker for which the part is required and for parts which require color matching, the color of the cabinet.

All part numbers have TEN DIGITS (spaces), required for use in the Computer System. BE SURE to fill in ALL SPACES in the CATALOG NUMBER column, on the parts order form.

WIRING DIAGRAMS

This section is provided as an aid in understanding the electrical circuitry of the Model MF900 Modular Flaker Ice maker

////////// WARNING //////////

When conducting a continuity check of the modular cuber:

1. Disconnect the main power source.
2. **DO NOT** use an incandescent lamp or jumper wire, conduct all tests with a volt-ohm-meter.

////////////////////////////////////

The wiring diagrams in this Section are:

MF900AE-2A or MF900AE-7A 208 & 230/60/1
MF900WE-2A or MF900WE-7A 208 & 230/60/1
MF900A-3A 208-230/60/3
MF900W-3A 208-230/60/3

With contactor isolation relay

MF900AE-2A or MF900AE-7A 208 & 230/60/1
MF900WE-2A or MF900WE-7A 208 & 230/60/1
MF900A-3A 208-230/60/3
MF900W-3A 208-230/60/3
