

Subject: IDC215 or IDC255 Dispenser

The IDC215 and IDC255 are Cornelius dispensers. Placing a Scotsman ice machine on one requires an adapter from Cornelius.

As shipped Prodigy cubers work well and fill the dispenser very full. If the situation requires less ice, in most cases the ice level can be lowered by adding a KVS. Nugget models must use the listed ice level kit.

See Cornelius to confirm the adapter numbers.

Prodigy:

	C0330-C1030, EH130	C0322-C0522	EH222	EH330-EH430
Cornelius Adapter	629088536	629088537	629088662	629088536
Scotsman ice level kit*	KVS	KVS	KVS is standard on EH222	KVS

* Use the Vari-Smart system, set to the first position CW.

Nugget:
