

MERIDIAN™ SERIES

ICE AND WATER DISPENSERS

► The very latest
in ice- and
water-dispensing
technology.

With the introduction of Meridian™, Scotsman has combined legendary reliability, time-saving serviceability and convenient cleaning innovations in one all-new lineup. Born out of extensive market research, Meridian™ was developed with space, production and installation in mind — and delivers the softest, most satisfying ice on the market today.

Scotsman®
ICE THE WORLD DEMANDS

meridian™ 

Reliable performance.

Serving ice to patients, families and staff is a small but essential part of providing the highest quality care. In today's fast-paced healthcare environments, maintenance issues can be a challenge for busy employees. That's why every Meridian™ model is built to be reliable and easy to operate.

BETTER DISPENSING

With best-in-class technology powered by infrared sensors that intuitively sense start and duration, Meridian™ models feature an enlarged dispensing envelope and offset spouts to accommodate a variety of containers. And thanks to the all-new H²Nugget from Scotsman, it's easier than ever to provide soft, satisfying ice on demand.

REDUCED OPERATIONAL FOOTPRINT

Ideal for any area where space is at a premium, Meridian™ models have one of the smallest operational footprints of any comparable unit on the market. From crowded nurse stations to busy break rooms, Meridian™ helps maximize valuable facility space.

GREASELESS BEARING

Meridian™ models feature Scotsman's exclusive greaseless bearing design, a fully sealed configuration that eliminates the need for grease. Not only does this save valuable time and labor, it ensures a sanitary ice supply.

QUIET OPERATION

Meridian's improved condenser fan function minimizes unnecessary equipment noise that can negatively affect the atmosphere of your facility.

ENERGY EFFICIENCY

With electronic controls and a highly efficient compressor, Meridian™ models are up to 15% more efficient than the competition, providing the most energy savings possible for today's facilities.

SMART CONSTRUCTION

Whether it's the durable stainless steel evaporator, the larger sink drain opening that helps prevent clogging or the contoured sides that allow enhanced breathability, Scotsman designed Meridian™ for maximum efficiency and performance.

A dispensing solution you can count on,
featuring the softest ice form on the market

Three innovative models. One trusted name.

HID312

up to 260 lbs./day*
stores 12 lbs.

HID525

up to 500 lbs./day*
stores 25 lbs.

HID540

up to 500 lbs./day*
stores 40 lbs.

- Optional 4" adjustable legs available for easy cleaning beneath unit
- Newly designed optional stands add lockable, hinged door with internal storage
- All models come with Scotsman's industry-leading three-year parts and labor warranty, as well as five-year parts coverage on compressors and condensers
- ADA-compliant for unit height requirements
- Wall-mounted units also available

* Approximate ice production, per 24 hours, based on air-cooled condenser unit at 70°F air and 50°F water.

Quick and easy service.

While regular maintenance is always an essential part of owning and operating any equipment, it's simply not an option to have frequent or prolonged downtime. With Meridian™ from Scotsman, you get true ease of maintenance, ensuring reliability for years to come without sacrificing valuable time and labor.

INTUITIVE DIAGNOSTICS

Easy-to-identify internal LED indicator lights on every Meridian™ model keep maintenance staff informed of the unit's operating status, helping them quickly diagnose potential issues and minimize costly downtime.

FRONT ACCESS TO KEY COMPONENTS

An easy-to-remove front panel provides instant access for diagnosing potential issues and servicing key components.

CONVENIENT QR CODE ACCESS

A unique QR code connects operators and technicians with unit-specific information, including parts lists, service manuals and warranty history information. In fact, Scotsman is the only manufacturer that gives operators instant access to information about their particular model on the spot.

EXCLUSIVE USB PORT

With a convenient USB port you'll find only on Scotsman products, operators can easily install the most up-to-date software without requiring a new control board.

An intuitive design that gives you the access you need, day in and day out

Convenient cleaning.

Ice machines play a critical role in both the health and safety of any facility — but no matter how new or advanced a unit may be, regular cleaning is still necessary to ensure proper conditions for reliable, uninterrupted operation. With Meridian™ from Scotsman, you get intuitive access that allows for fast, effective cleaning that fits your team's workflow and schedule.

EXTERNAL AIR FILTER

With an industry-exclusive external filter that allows easy access, rinsing and reusing, Meridian™ provides enhanced visibility — not only keeping regular cleaning top of mind, but helping to keep your equipment running effectively and reliably.

REMOVABLE SINK AND GRILL

Washing and cleaning are easier than ever thanks to Meridian's removable sink and grill.

BUILT-IN ANTIMICROBIAL PROTECTION

All Scotsman products feature AquaArmor with AgION™, a silver-based antimicrobial compound molded directly into key components to help inhibit the growth of microbes, bacteria, mold and algae.

PURPOSE-BUILT SPOUT DESIGN

A specifically designed spout with an angled front provides full visibility and access, making regular cleaning quick and easy.

TOUCH-FREE TECHNOLOGY

Scotsman's NSF-compliant infrared design was an industry first, eliminating levers and buttons that can increase the risk of cross-contamination.

Built to ensure sanitary operation at all times, even between regular cleanings

Scotsman. The clear choice.

- A leading brand in ice, trusted by many of the world's largest healthcare, foodservice and professional organizations.
- Proudly manufactured in our award-winning Fairfax, South Carolina facility.
- Solely focused on ice and the evolution of ice-making technology.
- A leading brand of the Ali Group, the largest and fastest-growing conglomerate of foodservice equipment companies in the world.
- A three-time ENERGY STAR award winner — two-time ENERGY STAR Partner of the Year and winner of the ENERGY STAR Product Design Award.
