

Subject: Legs & Casters

Scotsman leg kits, KLP7, KLP2S, and KLP8S, caster kits KBC1 and KBC1P all have the same thread size: 5/8 - 11.

Nearly all Scotsman bins and machines with storage have the same leg thread size too: 5/8 - 11.

This includes:

- SCE cubers
- CU cubers (not CU0515)
- AFE flakers
- NSE nugget flaker
- BH bins (not BH360)
- B222S, B322S, B330S, B330P, B530S, B530P, B842S, B948S
- HTB bins
- HD dispensers. Flanged-foot legs (KLP7) included with HD30 and HD22.
- DMS machine stands

Exceptions:

- BH360 and B230P - thread size is 1/2 - 13
- CU0515, CSE60 - thread size is 1" BSP
- CSW45, CS0415
- ID dispensers (thread size 3/8 - 16)
- Residential machines like the DCE33. SCC50
- BH1351, BH1352, BH1360 and similar prior bins. See each bin's individual parts list.

Caster Applications:

- KBC1 fits all that accept 5/8 - 11 legs, but should not be used with a plastic shell bin or a 22" wide bin.
- KBC20 is designed for HTB, plastic shell bins.
- KBC1P is designed for B330P and B530P.
- Casters are not intended for use with stacked bins or with machine stands.
