

Instructions

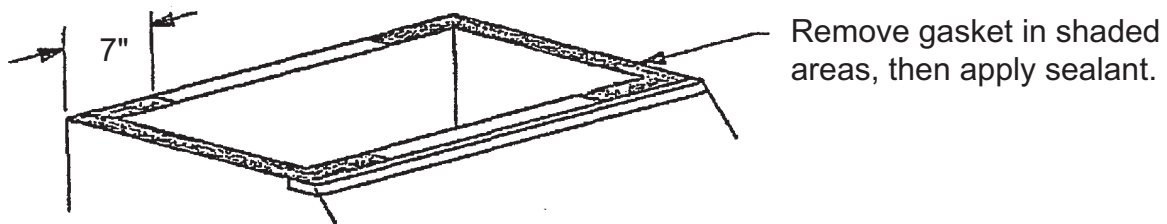

KBT14A - fits a variety of ice storage bins and ice machines.

Kit contents:

- 2 filler plates
- Tube of sealant
- Support brackets

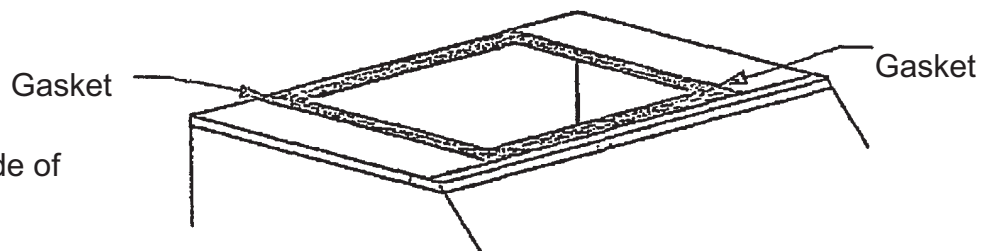

To Install:

1. Remove 7 inches of gasket from each end of the bin.

2. Lay a bead of sealant in the area where the gasket was removed.

3. Place one bin top panel on each end of the bin and push down to seat the panel. The insulated side of the panel faces down.

4. Place ice machine on bin.

5. Fasten ice machine to bin using the support brackets from the kit and the hardware from the ice machine.
