

SERVICE BULLETIN

Subject: Water fitting change

Certain water and drain fittings are being changed from brass to copper.

- Service part A31828-001 changes to **16-1154-23**
- Service part A31828-002 changes to **16-1154-22**
- Service part A31828-003 changes to **16-1154-21**

The new service parts are a kit that includes a copper fitting, screws, filler plate and a bracket to hold it.

This change is also being phased into production.
