

Ice For Every Occasion.

Scotsman[®]
The Ideal Ice

Choosing the right ice matters.

There's nothing like sipping on a drink with ice that's crystal clear, odorless, and taste free. That's "ice for the purist®" from the Brilliance® Gourmet Cuber from Scotsman.

At other times, there's the equally enjoyable satisfaction of crunching on "the original chewable ice®." Once only available in restaurants, that soft, fun-to-chew nugget ice is now exclusively available from the Brilliance® Nugget Ice Machine from Scotsman.

20-year scotch or 2-minute lemonade, the choice of ice should never be an afterthought. Friends and family mean too much not to serve them your very best.

Ice For The Purist®

The Brilliance® Gourmet Cuber from Scotsman produces ice that's crystal-clear, taste-free and odorless. The unique shape prevents clumping and allows the cubes to melt slower, which means drinks stay truer to their original flavor.

UNIQUENESS:

Hard, crystal-clear ice with a distinctive form.

ADVANTAGES:

Melts slower—won't dilute the drink as fast.

IDEAL USES:

Perfect for premium, mixed drinks, or for elevating any beverage occasion into something special.

The Original Chewable Ice®

The Brilliance® Nugget Ice Machine from Scotsman delivers the same nugget ice we introduced to the foodservice industry in 1981. Cravings for the soft, chewy goodness of this ice can now be satisfied at home and enjoyed by family and friends.

UNIQUENESS:

Soft, compacted ice in classic nugget form.

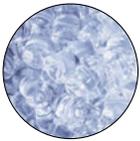

ADVANTAGES:

Easy to chew, fun to crunch, absorbs flavor of beverages, cools beverages quickly.

IDEAL USES:

Perfect for soft or blended drinks, smoothies, food displays and everyday uses.

Characteristics of a Brilliance® machine

MORE ICE CUBE PRODUCTION

Produces three times more ice when compared to previous models.

OUTDOOR USE

If you have an outdoor living area, there are models specially designed for outdoor use.

AESTHETICS

Will blend in and enhance any kitchen or entertainment area.

ENERGY AND WATER EFFICIENCY

SCC50 uses 50% less energy and 33% less water compared to our previous models. SCN60 uses 40% less energy and 50% less water than cuber models.

CONTROL PANEL

An LED indicator light signals when the unit is on, the presence of water, as well as the unit's cleaning needs.

SMART DESIGN

Has self-closing door and interior light to help reduce energy consumption and illuminate interior.
